# Say goodbye to guesswork and hello to a game-changing waste management solution with Mobi

Mobi revolutionises waste management by providing a flexible and highly accurate solution for granular waste data. Its implementation is a breeze, seamlessly integrating with existing infrastructure in offices, universities, hospitals, and branch networks.

By simply attaching Mobi to garbage bins or cleaners trolleys, you can effortlessly weigh and allocate bags at the source, all through the powerful integration with the Bintracker platform.

Automated Weight & Collection Point Capture

Patented Grippers are Washable and Replaceable

Hot-Swappable Batteries

Integrated Wireless Phone Charger
